## Summer Training

**C++ Programming**                                                                                          **June 2023 – July 2024**

*Programming Pathshala.*
- Completed a comprehensive training course in C++.
- Gained proficiency in C++ programming, including functions and OOP concepts.

## Projects

**Personal Website** | *MERN Stack, Responsive Web Design*                                   **April 2024- Aug 2024**
- Developed a personal website to showcase my portfolio, including projects, skills, and contact information.
- Implemented with HTML, CSS, and JavaScript for a responsive and interactive design.
- Applied MERN stack knowledge successfully to create a fully functional MERN stack website.

**Speak X** | *MERN Stack, Responsive Web Design.*                                              **March 2024- March 2024**
- The X Clone is a full-stack web application inspired by [X Platform] (e.g., Instagram, Twitter, etc.), built using the MERN stack.

  It replicates key features and functionalities of the original platform, providing a modern, scalable, and responsive user experience.

  This project leverages MongoDB for data storage

**Wheather-app** *(React)*                                                                          **February 2024- February 2024**

*Developed a web application using React for dynamic content rendering and efficient state management.*

*Implemented routing and navigation features to enhance user experience and component interaction.*

*Created reusable components to improve scalability and maintainability. Created reusable components to improve scalability and maintainability.*

## Achievements

**Smart India Hackathon**                                                                                  **June 2023 – July 2024**
- Ranked top 5 in opted problem statement and 35 out of 300 teams in the internal hackathon 2023 placing in the top 12 %.

## Certifications

**Operating Systems**                                                                                              **April 2024**

*Edureka*

**Data Base And Management**                                                                              **March 2023**

*Edureka*

**Tableau**                                                                                                        **January 2024**

*Edureka*

## Technical Skills

**Languages** C++, JavaScript, Node, c, python , Express, SQL

**Technologies/Frameworks**: React JS, Node JS, Git, GitHub , Postman(backend testing platform), Linux, MongoDB

**Skills**: Data Structures and Algorithms, Problem-Solving, Responsive Web Design

## Education

**Lovely Professional University Punjab**                                                                      **2021 – 2025**

*Computer Science and Engineering — CGPA: 6.89*                                                      *Jalandhar, Punjab*

**Sri Chaitanya Junior College**                                                                              **2019 – 2021**

*12th with Science — Percentage: 85.40*                                                          *Andhra Pradesh, India*

**Sri Chaitanya techno school**                                                                               **2018 – 2019**

*10th with Science — CGPA: 9.5*                                                                  *Andhra Pradesh, India*
